Should such be the case he would recommend additional taxation judiciously laid so as to be the least burdensome to the country, rather than resort to borrowing money and increasing the public debt.

The Secretary said this morning the public debt is in much better shape than it was, although it was not too early to approximate the amount. He has written a letter to the Chairman of the Ways and Means Committee recommending that the sum of \$100,000,000 be appropriated to meet the remaining balance of duty on tea and coffee, which will yield \$10,000,000 per annum. He also enclosed a letter to him from Commissioner Douglass, in which he recommended that increased tax on tea and coffee, which would yield \$7,000,000. Four cents additional per pound on tobacco which will yield \$4,000,000. On illuminating gas, \$4,000,000, or gross weight of \$100,000,000, or gross weight of \$4,000,000, on steamboat gross revenues from passengers and freight, \$600,000; express companies, \$300,000; insurance companies, \$100,000; telegraph revenue, \$200,000, making in the aggregate \$100,000,000. With the tax on tea and coffee would make up \$10,000,000.

The Commissioner says if no revenue is wanted, the tax on tea and coffee, the extent of \$10,000,000, by increasing taxes as formerly proposed, which includes stamp on all legal instruments, deeds, mortgages, etc., and making additional receipts of over \$100,000 millions from internal revenue funds.
